THE SPOTS

In the stunning Finnish Lapland, Pallas stands out among the many mountains for its unique features. Firstly, the valleys situated above the tree line offer an extraordinary advantage – you can smoothly glide from one hill to another without the need to land your kite. With favorable winds, you can effortlessly tour through 9 hills in one exhilarating session.

Secondly, Pallas is nestled within the magnificent Pallas-Ylläs National Park. This means that the mountains remain untouched and open for kites to explore. Picture this: no roads, no rocks, no buildings obstructing the breathtaking scenery. It's just you, your kite, and the vast wilderness. Keep an eye out for the occasional visit from a curious reindeer, adding an extra touch of enchantment to your experience. At the Pallas hotel you will be able to start kiting straight from the hotel, how about that ?!

YOUR SNOWKITE LESSONS

Learn the basics of snowkiting in the Finnish Lapland. The concept of snowkiting is quite simple and you don't need to be an expert skier or snowboarder to enjoy the many sensations provided by the speed and the jumps this activity allows. A couple of lessons are usually enough for anybody to get the hang of the equipment.

Though physical at first, it is not as extreme as kitesurfing, and more generally, it takes a lot less wind to move you across the snow than if you were kitesurfing on water. Snowkiting is enjoyable on any type of snow: powder, sludge snow, ice (frozen lakes). This makes it a very flexible sport that can be practiced in many different locations as long as they are windy enough. Rest assured, snowkite beginners who already know how to kite and ski/snowboard will be able to manage on their first session!

IN CASE OF LOW WIND CONDITIONS

Unfortunately, as you would know if you kitesurf often, the wind even in perfect and renown kiting spots doesn't always pan-out. So we at Snowkite Sensation make sure that there is plenty for you to do in this unfortunate scenario.

SPORTS

Skiing is always an option in our snowkite travel collection. In Levi you are spoilt for choice, with 230 km of groomed ski runs. As well as 28 km of floodlit slopes offering the possibility to ski from morning to night. Fat bikes are available to rent at the hotel. The electric powered fat bikes are a fun activity if you wish to wander across the natural park.

IN CASE OF LOW WIND CONDITIONS

VISITING AND RELAXING

Your package includes one entry per person to the **Arctic Sauna World**. The venue has four different saunas, each with a unique atmosphere and ambiance. After your snowkiting sessions, make way for a little relaxation, meditation and mental and physical cleansing.

After dinner, if you have a little more energy left in you, you can head out through the forest up to the mountains where there is absolutely zero light pollution. With some luck you will have the privilege to experience some of the most amazing Northern lights (aurora borealis). The walk in the dark and quiet wilderness is an experience in itself! Make sure you don't miss the final stop in a hut to drink some local spirits. Refusing is not an option. On another note, the Father Christmas village is a 2h drive from the hotel, a fun activity if you are planning to travel with young kids.
