# ADVENTURE

Join us on a thrilling snowkiting escapade as we unveil our latest addition to our Eastern European snowkite travel collection, Pilsko! Your journey commences in the enchanting city of Krakow, where your first day in Poland offers optional exploration. Afterward, embark on a picturesque drive south towards the Slovakian border, where your charming wooden chalet accommodation awaits.

Pilsko, standing as the second-highest mountain at 1557 meters in the Żywiec Beskids mountain range, is strategically situated on the Polish-Slovak border.

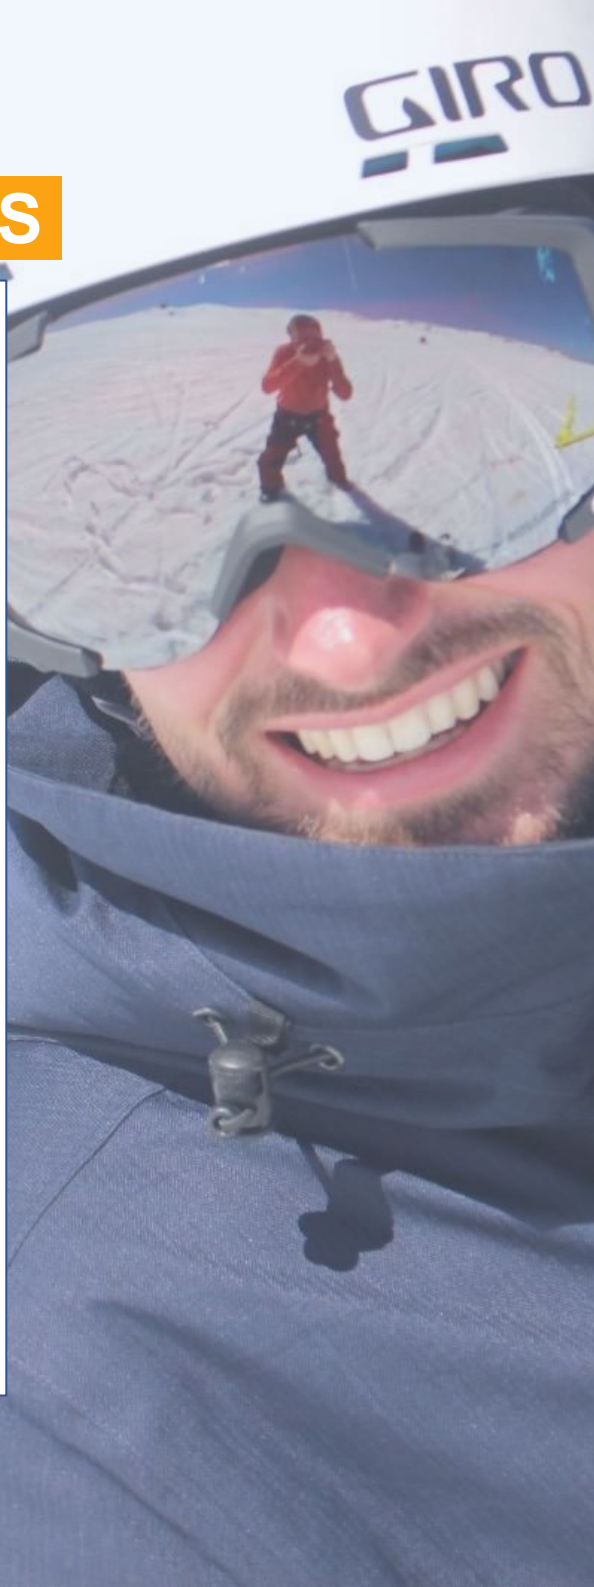

The allure of this destination lies in its diverse kiting spots, some nestled in Poland, some in Slovakia, and others spanning both countries. The choice is yours!

Pilsko welcomes snowkiters of all levels, making it an ideal location to hone your snowkiting skills. The prime window for snowkiting at this locale is between December and March. In the rare event of unfavorable winds, fret not, for a plethora of winter activities awaits you nearby, including ski slopes with remarkable freeride tracks, ski touring, and more. Your dream winter adventure is just around the corner!

# THE SPOTS

Our snowkiting paradise unfolds at the summit of Pilsko mountain, where an awe-inspiring adventure awaits. Within its proximity, a dynamic terrain landscape greets you, showcasing ridges, slopes, and the distinctive regional vegetation. This diverse terrain is your playground to elevate your kiting prowess, ensuring endless fun and skill improvement!

Here, the wind is at your service, as any direction proves favorable thanks to the summit's flat dome. Take a moment to savor the breathtaking panorama from the summit of Pilsko mountain.

Gaze upon the majestic Tatra Mountains, Babia Góra, and the entire Beskid Oravsko Žywiecki region. The view from this vantage point is bound to leave you speechless. Prepare for an unforgettable snowkiting journey amidst this natural wonder!

# YOUR SNOWKITE LESSONS

Learn the basics of snowkiting in the Pilsko. The concept of snowkiting is quite simple and you don't need to be an expert skier or snowboarder to enjoy the many sensations provided by the speed and the jumps this activity allows. A couple of lessons are usually enough for anybody to get the hang of the equipment.

Though physical at first, it is not as extreme as kitesurfing, and more generally, it takes a lot less wind to move you across the snow than if you were kitesurfing on water. Snowkiting is enjoyable on any type of snow: powder, sludge snow, ice (frozen lakes). This makes it a very flexible sport that can be practiced in many different locations as long as they are windy enough. Rest assured, snowkite beginners who already know how to kite and ski/snowboard will be able to manage on their first session!
